

Google map image showing where Flying Field was to be located.

Ditch where culvert was used.

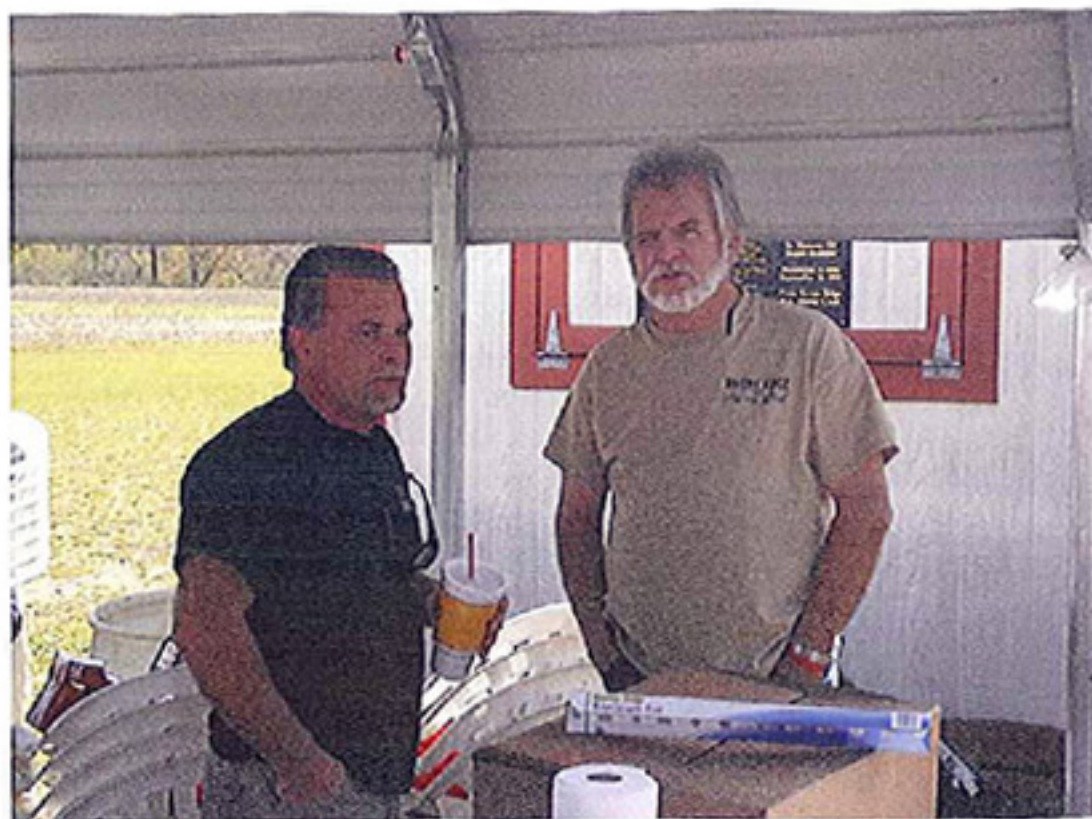

After initial grading.

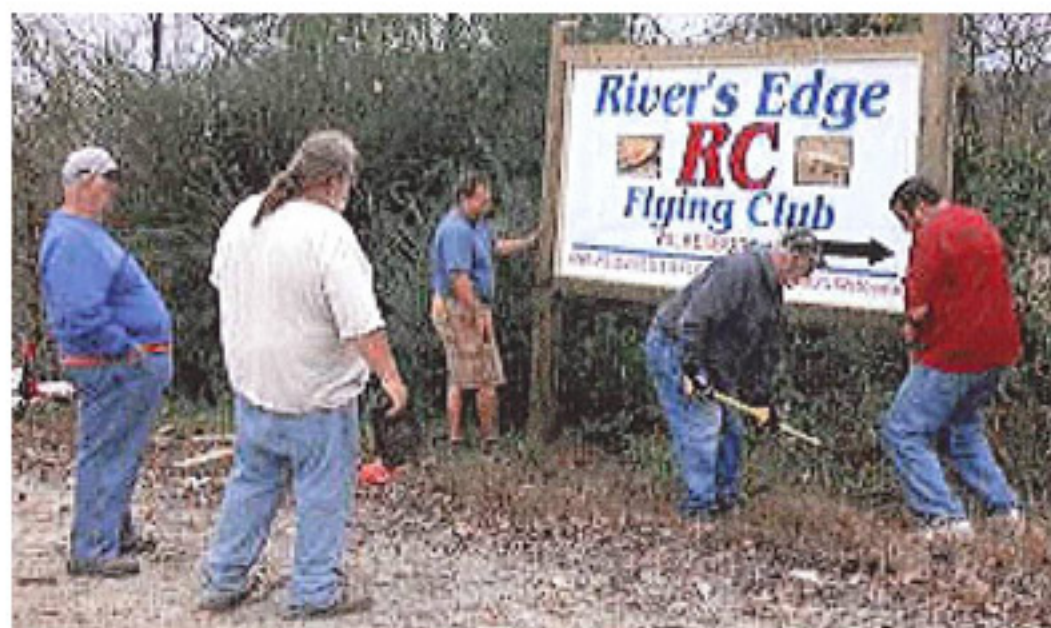

New shed is installed.

The lawnmower building can be seen behind our members. The only photo we have of this building after the move.

Making the move from the old field.

Putting up our new sign at our new flying field.

Grass really looked good after the rains.

The field has been widened.

A small group of members at a meeting wanted a photo for our webpage and facebook.

More of the move from the old field.

Grass has come up!
